

III. CIVIL/ENVIRONMENTAL ENGINEERING OR ENVIRONMENTAL SCIENCE CURRICULUM:

Please assess your ability/knowledge gained in the following areas:

	Excellent	Very Good	Adequate	Needs Improvement	Needs Considerable Improvement
1. Ability to apply your knowledge of mathematics, science and engineering	5	4	3	2	1
2. Ability to design and conduct experiments and analyze and interpret data	5	4	3	2	1
3. Ability to design systems and components to meet desired needs	5	4	3	2	1
4. Ability to function as a member of a team	5	4	3	2	1
5. Ability to identify, formulate and solve civil/environmental engineering or environmental science problems	5	4	3	2	1
6. Understanding of professional and ethical responsibilities	5	4	3	2	1
7. Ability to communicate (written and oral) effectively	5	4	3	2	1
8. Broad education necessary to understand the impact of engineering/ science solutions in a global/societal context	5	4	3	2	1
9. Recognition of the need to engage in life-long learning	5	4	3	2	1
10. Knowledge of contemporary societal/engineering or science issues	5	4	3	2	1
11. Ability to use the techniques, skills, and modern engineering/science tools necessary for professional practice	5	4	3	2	1

Please identify the courses or experiences (including student organizations) where you acquired ability/knowledge for each of the above areas.

IV. GRADUATE DEGREE

Please evaluate your response to the following statements using a scale of 1 (strongly disagree) to 10 (strongly agree).

STATEMENT	EVALUATION (1—strongly disagree and 10—strongly agree).
1. I am satisfied with the number and quality of electives.	
2. I am satisfied with the number and quality of laboratory experiences.	
3. My technical writing abilities improved during my career.	
4. My oral communication skills improved during my career.	
5. I have acquired sound time management skills during my career.	
6. The team experiences during my career were beneficial and enjoyable.	
7. My design skills improved during my career.	
8. I feel I am well prepared for the job market.
