

Participants

Jason Riharb
REU Participant
Civil Engineering
The Citadel
Charleston, South Carolina

REU participant for the REU research project on "Study of the Ductility and Deformation of High Strength in Tension."

Elizabeth Thesing
REU Participant
Chemical Engineering
University of Cincinnati
Cincinnati, Ohio

REU participant for the REU research project on "Study of the Ductility and Deformation of High Strength in Tension."

Emily Meiser
REU Participant
Chemical Engineering
University of Cincinnati
Cincinnati, Ohio

REU participant for the REU research project on "Study of the Ductility and Deformation of High Strength in Tension."

Maria Nunez
REU Participant
Architectural Engineering
Texas A&M University-Kingsville
Kingsville, Texas

REU participant for the REU research project on "Measurement of Slip in Slip-Critical Connections with Different Specification Holes."

Maksim Yegorov
REU Participant
Civil Engineering
San Jose State University
San Jose, California

REU participant for the REU research project on "Measurement of Slip in Slip-Critical Connections with Different Specification Holes"

Ian McElhone
REU Participant
Civil Engineering
University of Pittsburgh
Pittsburgh, Pennsylvania

REU participant for the REU research project on "Measurement of Slip in Slip-Critical Connections with Different Specification Holes"

Heath Zumstein
REU Participant
Civil Engineering
University of Cincinnati
Cincinnati, Ohio

REU participant for the REU research project on "Parametric Flexural Evaluation of Concrete Members Reinforced with High-Strength Reinforcement."

Brittany Williams
REU Participant
Mechanical Engineering
University of Cincinnati
Cincinnati, Ohio

REU participant for the REU research project on "Parametric Flexural Evaluation of Concrete Members Reinforced with High-Strength Reinforcement."
