Nearly three years ago, the University of Cincinnati successfully launched the Center for Sustainable Urban Engineering. Since that time, we've sponsored a dozen research projects, commissioned white papers on strategic topics, established a University-wide minor in Sustainability, and fostered a network of partnership which place SUE as a local, regional, and national leader

As part of our continuing growth, this year we are launching an annual symposium entitled, "CELEBRATING SUSTAINABILITY".

You are cordially invited to our inaugural event.

Sincerely,
Dan Oerther
Director, Center for Sustainable Urban Engineering

When: Tuesday, November 18, 2008 from 7:30am until 1pm

Where: Room 427 Engineering Research Center, UC Uptown Campus

Program:

7:30-8am Light breakfast and poster review
8am introduction by Russell Best, UC student government
8:15-9am Session 1 – Research
Grinshpun – health effects of particles from transportation
Lee – alternative energy: biomass to fuel
Chifos – modeling geospatial data
9:09-9:45am Session 2 – Education
Miller – minor in sustainability
Russell – senior capstone with planning and engineering
Schriner – coop experience in transportation
9:45-10am Break and poster review
10-10:45am Session 3 – Partnerships
Ciotti – green learning station
Russell – university linked retirement communities
Carr – natural playscapes for children
10:45-11:30am Session 4 – Other initiatives
Berger – Green Partnership for Greater Cincinnati
McGrew – PACES
Falkin – Mayor's climate protection
11:30-noon Light lunch and poster review

Poster presentations:

Wei – transportation; McTague – OTR urban geography; Papautsky – brown field health monitoring; Suidan – urban stormwater; Dionysiou – nanotechnology; Kupferle – new course, "Intro to SUE"; Salem – new course, "Green Building Assessment"
