# africa-by-night-and-relative size

A network diagram consisting of numerous small yellow nodes connected by thin yellow lines, forming a complex web. The nodes are more densely packed in the center and become sparser towards the edges. The background is a solid red color.

**“Just 1 % of the available  
sahara desert area alone  
would theoretically suffice  
to provide  
the total global electricity  
demand through Solar  
Thermal Power Plants.”**

Prof. Volker Quaschnig
